JUL 17 2006

UTAH DIVISION OF
SOLID & HAZARDOUS WASTE

July 12, 2006

Director of Risk Management

SUBJECT: Class 2 Modification to the CAMDS RCRA Part B Permit Adding the Chemical Test Facility (CTF) as a Permitted Hazardous Waste Storage Unit; Removing Permit Conditions, Information, and References for Closed Management Units; and Making Other Miscellaneous Changes.. Deseret Chemical Depot, EPA I.D. Number UT5210090002.

Mr. Dennis Downs
Executive Secretary
Attn: Mr. Brad Lauchnor
Department of Environmental Quality
Division of Solid and Hazardous Waste
P.O. Box 144880
Salt Lake City, Utah 84114-4880

Dear Mr. Downs:

CAMDS requests of the Executive Secretary a Class 2 Modification to its RCRA Part B Permit [in accordance with 40 CFR 270.42(b)] to allow containerized storage of hazardous waste in the Chemical Test Facility (CTF) building at CAMDS. Specifically, this request is to permit the storage of secondary and other wastes from closure operations. The CTF is located north of the Brine Drying Area (BDA) building in the northwest corner of the CAMDS site.

This modification also adds Sumps 1A and 1B to the permit because they are part of the CTF secondary containment system. In addition, it removes some permit conditions, information, and references for closed management units, and makes other miscellaneous changes

In accordance with 40 CFR 270.16(a) and Condition I.R. of the CAMDS Part B Permit, a written assessment certifying the construction of the CTF and its secondary containment system (where applicable) will be submitted prior to use of the CTF for hazardous waste storage.

This modification is submitted as a Class 2 in accordance with 40 CFR 270.42, Appendix I, paragraphs F.1.b. and D.3.g. All the requirements concerning notices and a public meeting will be complied with according to 270.42(b)(2) through (5).

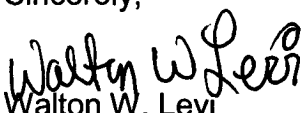

The enclosures contain the proposed changes to the CAMDS Part B Permit as follows:

- Enclosure 1 Copy of the public notice
- Enclosure 2 Redline pages of the modules, attachments, and other sections of the permit that are changed by this modification.

Electronic files of the changed permit sections are provided on the enclosed disk.

If you have any questions regarding this modification, please contact Mr. Lyman Thorpe at (435) 833-4424 or Mr. Troy Johnson at (435) 833-4198.

Sincerely,

Walton W. Levi
 Director of Risk Management
